**BSG Tractors and Machinery was established in 1986.** We offer a service to those people who own or manage land . We supply a wide range of equipment, comprehensive technical support, parts back up and an exchange or buy back option when our products are eventually no longer needed. This allows us to offer used or refurbished machines and ensures that value in our equipment is maintained. This catalogue contains the main items that we sell, as the situation is constantly changing. Please see our website or contact us for more information on any requirements that you may have.

---

**The Portable Tractor Shed** is designed to house a small tractor and implements, or general use such as livestock, animal feed, logs etc. Being moveable it does not come under the normal planning constraints and so, can be placed in the best location. Construction is a strong box profile steel frame, covered with Juniper Green, polyester coated, steel profile sheeting. It is mounted directly on steel runners with towing eyes each end, The tractor shed can be pulled forward or backwards with a tractor. A single wide hinged door gives a two metre wide opening for easy access and can be secured with a padlock. Maximum dimensions, L 3m, W 2.3m H2.3m (supply is in kit form or delivered completely assembled). Price open one side, pictured bottom right £1280. (optional canvas side £78). Price for closed shed with a 2m door £1680. Two or more units can be joined together to cover a larger area. **BLEND NICELY INTO THE SUROUNDIN AREA .**

Right: tractor shed (with side removed), containing, small tractor, saw bench, hay rake, grass roller and earth scoop.

### THE GOLDONI TWIST TWO WHEEL GEAR DRIVEN PROFESSIONAL TRACTOR

All Goldoni built Twist Models have reversible and adjustable controls, to operate front and rear mounted implements, a wheel release lever and an automatic safety stopping system. This makes them ideal for cutting grass and rough areas as well as all types of cultivation. They are ideal for driving stationary equipment such as chippers, saw benches and also for towing trailers.

## TRACTORS

7

QUAD TRACTORS, gentle on land, tough on work, safer on slopes. The tractors all have 4 wheel drive, 4 wheel steering, 4 wheel braking and a low centre of gravity.

QUAD 20 Built by Goldoni. Dimensions, L 2.5m, W 0.9 to 1.2m, Wt. 750kg, Engine 20hp air cooled, 6 forward 3 reverse gears, standard wheels 6,50x15" or wide wheels 26x12" Price Stage 1 £7,780 (standard wheels), Stage 2 & 3 £7990, both 2 & 3 are on wider wheels. Options wider platform £285, tipping pipe £110, side mounted hydraulic lever £140.

QUAD TRACTOR 30 & 40. Built by Ferrari. Dimensions L 2.8m, W 1.0 to 1.35m, Wt 950 & 1000kg, Engine 26 or 36hp water cooled, 8 forward 4 rev gears, standard wheels 6.50x16" or wide wheels 260x70x16". Price Q30 £11,580, Q40 £12,580. Optional wheels £485 (as picture left) price includes double acting external hydraulic service.

MAXTER right from Goldoni.49hp. Optional four wheel or conventional steering Price £17,600

FERRARI Quad 60, 49hp left with the option of a reversible steering position and also a drivers cabin. Prices from £17,800.

All models except 20 can, have conventional or four wheel steering

SEE OVER for the advantages of the Quad tractor design.

The design gives extra stability and traction due to equal wheels and low centre of gravity

4 wheel steering is best for limited access, precise reversing and a true 90 degree turn.

A tractor is only as good as the implements. We have the best choice for every task.

Gentle on the ground – easy to maintain – very versatile—stable on slopes—cost effective
