BSG Tractors and Machinery was established in 1986.

2

BSG offers a service to those people who own or manage land . We supply a wide range of equipment, comprehensive technical support, parts back up and an exchange or buy back option when our products are eventually no longer needed.

This allows us to offer a selection of used and refurbished machines.

It also ensures that condition and value in our equipment is maintained.

This price guide contains the main items that we sell, but as the situation is constantly changing, check our website, or contact us for more details and up to date information on any requirements that you may have.

Contents

PORTABLE BUILDINGS Portable Tractor Shed & Portable Shelter

The Portable Tractor Shed, designed to house a small tractor and implements, or for live-stock, animal feed, logs etc. Being moveable it does not come under the normal planning constraints and so can be placed in the best location. Construction comprises of a strong box profile steel frame, covered with juniper green, polyester coated, steel profile sheeting. It is mounted directly on steel runners with towing eyes. The tractor shed blends into the scenery and can be moved easily with a tractor.

Full width door, for easy access.

Grass Topper, adjustable cutting height, works in line or offset includes safety shear bolt. Max width 1.17m £1,090 or Width 1.35m £1,260. opt overrun clutch £98.

Flail Mower 1.25m cut, rear roller controlled cutting height, weight 115kg, ideal for tractors 15 to 30hp. Gives a fine finish Price £1,465.

Hay Rake / Turner. Two wheel, ground driven, can be set to turn for drying, or rake into rows. Ideal for all hay, long grass, weeds etc. Tractor mounted, does not need PTO Price £890. Optional angle bracket for shorter grass £47.

Trailed Hay Rake,
for Quad Bikes,
4 x 4s, Garden Trac-
tors, etc . £1190

The trailed hay rake is also ground driven but it has its own wheels and manual lift system for transport, both can also be used as light harrow for dethatching lawn and grass.

Buck-rake. for light materials, hay, grass, manure, bushes etc. It has a tipping lever, which automatically locks when the buck-rake is emptied and lowered. Prices 1.2m wide £615 & 1.4m wide £745.

ALL PRICES EXCLUDE VAT

Scythe Cutter, (twin blade), Hydraulic or manual folding, it can work vertically to trim hedge sides, horizontally to cut hay, reeds and rough growth and down to 60 degrees to cut banks. Six models are available 1.2 to 1.8m cut, from £2890

Fence Post Driver for small and compact tractors. Uses single hydraulic pipe £1480

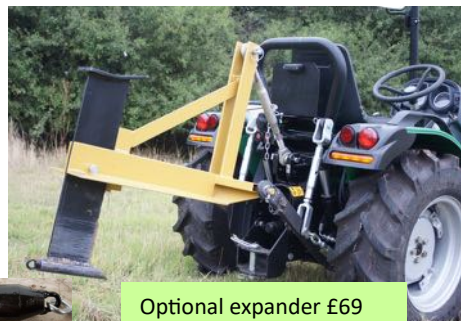

Hedge Trimmer tractor mounted, hydraulic operation with 1.2 or 1.5m cutting bar, 2m reach. Can cut material up to 3cm thick. Price from £4250 . Also side arm flail mowers from £5900

LAND DRAINAGE The Mole Plough/ Subsoiler.

To drain wet land or to lower the water table, the mole plough option (as picture) is used. The beam controls the depth, the blade cuts a vertical slot, below which a drainage tunnel is formed in the ground. An optional expander can increase the size and also the strength the mole tunnel. The mole is also used to **lay pipes and cables** and avoid the need for a trench

To subsoil invert the blade. This is ideal for ripping up rough areas prior to root clearing, levelling, earth moving, or further cultivation. It prevent damage to other implements and is also used to break the plough pan in cultivate land. Best for tractors 25 to 60hp ,£425

Optional expander £69

Also: Steel cage wheels and balance weight to keep engine vertical on steep banks.

TRACTOR SECTION - Quad Tractors

What is a Quad Tractor? The design gives four equal sized wheels, with around 65% of total weight on the front axle, by adding the weight of the driver and rear implement, stability and traction are greatly improved. A conventional tractor is taller, with the majority of the weight on the rear axle. Front weights may be needed to improve stability.

QUAD TRACTORS, can offer the following
A LOWER CENTRE OF GRAVITY for **EXTRA SAFETY ON HILLS** and **LESS DAMAGE ON SOFT GROUND**,
With articulated steering the front wheels always remain parallel and larger front wheels have better flotation and traction, also they are more efficient if using the **4 WHEEL BRAKE** when going downhill.

Conventional steering is also available.

Four wheel articulated steering allows very tight turns & easy reversing with a trailer.

Mini Tractors

Goldoni Tractors

Ferrari Tractors

MINI QUAD TRACTORS

6

Ideal for use in tight places and on a small acreage. They can be very narrow to work in rows and small areas and are ideal to tackle many jobs that may otherwise need to be done by hand. They have a PTO, three point lift (cat 0) and a unique range of implements.

3 POINT LIFT— Power take off— 4 WHEEL DRIVE — HONDA PETROLENGINE .
A very economical tractor, easy to drive without the noise and pollution of diesel.

Engine Honda Petrol max power kw/ps 9.6/13, Gears 4F 3Rev, max speed 18kph, Length 2.4m Typical width 0.85 to 1.2 m, weight typical 500kg. Prices £4,200 to £5680. Implements available for hay, cultivation and general work.

GOLDONI QUAD 20 was virtually unchanged in 20 years, when the main production ceased in 2016. Some models have now become available for around £11,000
We also offer a number of used and refurbished Quad 20 Tractors.

The Quad 20 model, was never made by Goldoni. It was produced by BSG using a modified Goldoni vineyard tractor from 1996. It proved to be very popular, many hundreds were sold. Like many things it is no longer possible to buy one of this design without the electronic gadgets. It was the simplicity of the design that has made the tractor so easy to maintain and so popular over so many years.

Dimensions, Length 2.5m Width 0.9 to 1.2m, Wt. 750kg, Engine 20hp air cooled, 6 F + 3Rev gears . Wheels 6,50x15" , or (wide wheels 26"x 12"), Prices from £11,390. Options, larger footplates £285, tipping pipe £110, side mounted hydraulic lever £140.

Spring=tine Grass Harrow/ clears moss, dead growth spreads manure.

Like the grass harrow it is good for Pasture Restoration. 1.2m wide, 29 tines £460 . 1.5m wide, 48 tines . £690

TEL 01206 212092 E-MAIL sales@bsgtractorsandmachinery.co.uk

**Bulldozer for Earth Rocks & Snow.**

This is a heavy blade, used to dig and push, it can easily be angled to either side and a rubber strip is available for snow if required. Width 1.2m £395 or 1.4m width for £495.

**Angle Grader 1.20m adjustable blade.**

Like the bulldozer but can be used in forward and reverse. Available with a **fixed** headstock 105kg £620, or with a **swivel** headstock for offset use £695. Other models available up to 3m wide.

Stone Rake 120. A heavy implement, part ripper and part heavy rake. For rocks roots rubble and rough ground. It has angle adjustment as does the grader and a swivel headstock. The width 1.2m weight at 135 kg. price £890. Or width 1.4m weight at 150 kg £990.

Landscape Rake, for land clearance (stones, growth and rubbish) beach cleaning and pasture reclamation. Fully adjustable rake angle and optional fixed, or swivel headstock, (to offset rake), are available on 1.5m wide model at £695 and £765 respectively. The 1.8m rake is much heavier at 189kg. It is for a larger tractor. Available only with a swivel headstock at £878

Fixed Headstock available for Grader, Stone and Landscape rakes

Consider using a fixed headstock on very light tractors where stability may be an issue. For instance on very steep slopes.
